

ScanPro 1100

All-In-One Touch Screen Ready, Microfilm Viewer, Scanner, Printer

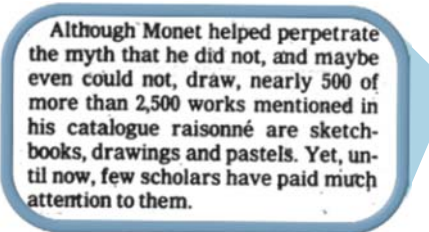

Low cost, built for public use, provides powerful features and is easy-to-use.

Track record of performance and reliability.

The world's leading universities, libraries and private companies have been choosing e-ImageData microfilm scanners over the competition for more than 20 years. No other equipment on the market can match the ScanPro for its proven track record of innovation, performance and reliability.

On-screen magnifier.

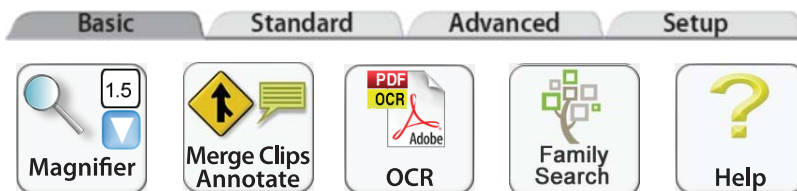

Slide the magnifier over the area you want to view in detail. It is easy, fast and intuitive. There is no need to resize or reposition the image.

Just slide the magnifier over any area on the image to view small text and image details up to 800%.

Customizable tool bar tabs and button controls.

Skill levels of microfilm users vary from the occasional user to the advanced researcher. Basic, Standard, and Advanced modes are available to match these skill levels. Also, you can customize the toolbar to meet the needs for any application.

Add you own text labels for tabs and button controls. You can even specify the size of the button control. Large buttons have been selected in this example, large buttons are ideal for Touch Screen applications.

The Complete Digital Solution

Time saving features

Patented FOCUS-Lock™ technology eliminates the step of focusing, even during film movement and changes in magnification. This means that the ScanPro is always ready to be used for making look ups and completing research easier, faster, and more efficiently. No other scanner can do this.

Performance

Small and compact, the ScanPro 1100 fits almost anywhere. One CLICK on-screen buttons complete look-ups quickly and efficiently. The combination carriers for all microforms are easy and fast to operate using the on-screen controls, the familiar manual buttons or the keyboard shortcuts.

Easy to Use

The ScanPro 1100 software is an intuitive Windows® computer application with familiar icons and text labels. And, an on-screen help menu is available for all controls to help the user at any time.

Value

The ScanPro 1100 is built for durability in public use applications. The construction is heavy gauge steel throughout and all moving parts use steel bearings for long term reliability. It is not unusual to find ScanPro scanners with over 1,000,000 scans and working just like new.

The ScanPro products have a proven track record of performance and reliability backed by factory trained and certified resellers.

ScanPro 1100 Features and Specifications

| |
|--|
| Camera optical resolution: 6,6 megapixels. |
| Maximum image size 426 megapixels (image size is not optical resolution). |
| Customizable: tool tabs, button controls, tool tips. |
| Save and Recall ALL settings including optical zoom magnification. |
| On Screen Magnifier (selectable zoom): to inspect small text and fine details. |
| FOCUS-Lock™ (Proprietary): Maintains focus at all times (even during optical zoom). |
| Portrait or Landscape, selectable camera position for maximum image resolution. |
| Roll Film Guide uses tangent focus plane rollers to prevent film damage. |
| Fiche carrier (oversize), combination roll film carriers (16/35mm and M cartridge film). |
| Optical/Digital zoom 7X to 432X magnification. |
| Digital rotation: Infinite |
| Scan Size: Specify size of the scan image to be printed (ScanPro exclusive). |
| Digital Image Rotation: Rotates film image 90° each "CLICK" or Flip Horizontal. |
| USB3/ USB2 convenient, integrated, front access port for portable flash drives. |
| Soft bright, true color optical green (std.), film-optimized lamps with lifetime warranty. |
| Software selectable resolution, 150 to 1200 dpi. |
| Automatic-Scanning of film (partial or full roll with auto-crop, straighten). |
| MergeClips™ combine, arrange, and size scans to a single page, plus annotation. |
| Instant: print, scan to HD, Cloud Storage, FamilySearch, e-mail (directly from within the ScanPro software). These are single "CLICK" buttons. |
| Reads Media types (all microforms): Film, fiche, microfiche, ap cards. |
| Optical Straighten (does not reduce image size), automatic, line and manual. |
| Roll Film Controls: Auto rewind, image advance (forward/reverse), slow/ fast speed film movement, framing, and familiar physical buttons to control film movement. |
| Export Scans to: USB3 or USB2 flash drives, Hard Drive, CD. |
| All common file formats with word searchable PDF/A (OCR with ABBYY® fine reader). |
| Auto-Adjust, a single click button adjusts brightness, contrast, straightens, and crop. |

ScanPro 1100 Product Information

| | |
|--------------------------|--|
| Fits almost anywhere | Patented technology provides compact design. |
| Operating Systems | Win 7 and Win 8.1 (32 and 64 bit). |
| Hardware Interface | USB3 Super Speed. |
| Dimensions (H x W x L) | (19 x 31 x 41) cm. (7.5 x 12 x 16) inches. |
| Weight | 9kg. (19.5lbs). |
| Power | 100-240VAC 50/60Hz. |
| Energy Efficiency | ENERGY STAR compliant and labeled. |
| Product Safety | OSHA workplace safety compliant, UL/CSA standards. |
| Scanner and film carrier | 12 month factory warranty. |
